Restart and Reentry for September 2020:

I forwarded a letter to all parents/guardians on July 30th giving an early indication on the hybrid instructional plan being prepared for 2020-2021. In English [here](#); in Spanish [here](#). Included in those letters was a form with a link for submission for parents/guardians to advise the district of how they want their students educated starting in 2020-2021: either using the district's hybrid in-school plan, or having their students instructed 100% virtual.

On August 7th I forwarded the complete board-approved plan for restart and reentry for use as reference. In English [here](#), in Spanish [here](#)

It is now critical that we hear from all parents/guardians by this Friday, August 14th, on how you want your children taught in 2020-2021. Please forward a response if you have not done so already. We have much work to do to sort out the schedules.

We completed our 2nd technology survey on July 31st and will be organizing additional device distribution the week of August 24th. Those impacted will be notified individually on distribution times/locations.

For parents/guardians who have younger children who will be attending our hybrid plan, you should consider starting a process of acclimating your children to wearing a face covering or mask. They will be required for the full instructional day, as well as arriving and departing from school.

There is much discussion in the news media and social media about whether schools will reopen in September. The district plan is based on the requirement that we must reopen to some form of in-school instruction. If this requirement changes, we will let you know right away.
