

Dear Parents/Guardians,

Flyers:

The link below is our Title I Virtual Summer Packet 2021. This resource gives students the opportunity to practice high leverage skills in English Language Arts and Math over the summer months. Use of these resources is not mandatory or required. However, students may find them useful in better preparing themselves for entry into their next grade level in September.

2021-2022:

School reopens Thursday, September 9, 2021

We will continue to give updates via these blasts on guidance received from Gubernatorial Executive Orders, as well as the Department of Health and Department of Education guidelines for conducting school in 2021-2022.

To date no written changes have been received to the guidance we have been operating under during 2020-2021, except that the virtual choice option has been removed for next year.

Parents of graduating 8th graders will continue to receive these blasts until Thursday, July 29th when we will "roll over" our students in our computer system from the current year school and grade to next year's school and grade.

Thank you.

Rocco Tomazic  
Superintendent
