

Dear Parents and Guardians,

Please find [here](#) a joint letter from the Monmouth County Superintendents that we are sending to all our parents/guardians in the county. It outlines our united perspective in planning for 2021-2022 amid current frustration with the guidance we have so far been receiving. We have chosen this path to be fully transparent so that you are aware of our challenges, but also to communicate to others in higher positions how these decisions are playing out at the district level. This letter is to keep you collectively informed of our efforts.

Please enjoy your Memorial Day weekend.

Thank you.
